Declaration on dealing with "Conflict Minerals"

Dear Sir or Madam,

s.e.t. electronics GmbH supports the efforts to prevent the trade of conflict raw materials. The basis for this action is Section 1502 of the so-called "Dodd Frank Act" and the EU Regulation 2017/821 for Union importers and their duties of care.

These require that raw materials such as tin, tantalum, tungsten or gold should not come from conflict regions in and around the Democratic Republic of Congo or high-risk areas. This approach is intended to remove the financial basis for armed conflicts in these regions.

s.e.t. electronics GmbH is not a Union importer or manufacturer and does not purchase or process raw materials directly. Consequently, s.e.t. electronics GmbH has no influence on the direct procurement of raw materials or their origin. Our key suppliers have been made aware of their responsibility and compliance with legal regulations.

We require and expect from our suppliers, also on their own responsibility, that these guidelines, regulations and laws are permanently complied with and care is always taken to ensure that the corresponding specifications are also applied in their supply chain.

With kind regards

i. V. Gunter Vogel
Quality Management Representative
